PANELFIT

Mutual Learning Encounter on the Code of Conduct on Data Protection for Responsible Research and Innovation

20th April 2021

MLE's aim:	Identify improvements that can be made to the Code of Conduct on Data Proteciont for Research and Innovation (CCDP) Evaluate the issues selected and addressed by the CCDP and the behaviour or actions proposed for addressing the issues
Expected results:	Verify accuracy, adequacy, utility, improvements to be made Whether the stakeholders would be interested in incorporating the CCDP into their work and advocacy, and if so how, and whether we could be of help in doing so.
Participants:	Stakeholders: Organisations promoting/facilitating/regulating ethical behaviour in science
Organisers:	**PANELFIT project** Fonden TEKNOLOGIRÅDET - Danish Board of Technology Institute of Marine Sciences ICM – Spanish National Research Council CSIC

13:00 – 13:10	**Welcome and introduction to PANELFIT**
13:10 – 13:15	**Context of the CCDP and presentation on the research of existing codes of conduct**
13:15 – 13:25	**Introduction to the CCDP** Recap of the principles and good practices MLE methodological explanation
13:25 – 13:55	**The principles in multi-actor perspective: clarity, comprehensiveness, and utility** Collaborative work session on the CCDP principles (participants break into small groups)
13:55 – 14:10	*Break*
14:10 – 14:40	**Multi-actor views on data protection practices** Collaborative work session on the CCDP practices (participants break into small groups)
14:40 – 15:15	**Plenary discussion** – final considerations and consolidated feedback
15:15 – 15:20	**Round off**
